Multimedia Digital Podium brings Innovation in Classroom

| What is Multimedia (digital podium system)?

The digital podium system enable the user to write on a tablet monitor with a built in podium, The cutting-edge system allows the user to directly write on a multimedia teaching plan and save the images along with the voice, for the easy production of multimedia learning contents. The digital podium has a built in sound system such as amplifier, wired, wireless microphone, which is essential for e-learning, and can be interfaced to all multimedia devices to facilitate their use as teaching tools. The embedded integrated controller allows to control the devices. With a single key and supports the plug & play function. It is ideal for classrooms equipped with the LCD tablet monitor along with LCD projector and screen
